

Forward-Looking Statements

This document contains forward-looking statements and factual information that are current as of the date the document was originally created. Riverside Resources Inc. ("the Company") disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Forward-looking statements include, but are not limited to, statements with respect to the timing and amount of estimated future exploration, success of exploration activities, expenditures, permitting, and requirements for additional capital and access to data.

Forward looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. Such factors include, among others, risks related to actual results of current exploration activities; changes in project parameters as plans continue to be refined; the ability to enter into joint ventures or to acquire or dispose of properties; future prices of mineral resources; accidents, labor disputes and other risks of the mining industry; ability to obtain financing; and delays in obtaining governmental approvals of financing

Any statements, opinions, projections, forecasts or other material contained in this presentation do not constitute a commitment, representation or warranty by the company or its directors, officers, agents or employees. The directors, officers, agents and employees of the company shall in no way be liable to any person or body for any loss, claim, demand, damages, costs or expenses of whatsoever nature arising in any way out of, or in connection with, the information contained in this presentation. This presentation does not constitute an offer to sell securities and is not a solicitation of an offer to buy securities. It is not to be distributed to third parties without the consent of the company. An investment in the company is considered to be speculative in nature. Each individual should rely solely upon its own investigations and inquiries with respect to the company and agrees it will not in any way rely upon this presentation. The company recommends that you consult your own professional advisor(s).

Qualified Person

The scientific and technical data contained in this presentation relating Riverside's mineral properties was reviewed by Freeman Smith, P.Geo., a non-independent qualified person to Riverside Resources, who acts as a "qualified person" under National Instrument 43-101 Standards of Disclosure for Mineral Projects.

- ➤ Canada gold exploration farm-in and farm-out activities including continuation of the exploration on the 100% owned Oakes Gold Project.
- Working towards a new Strategic Alliance with a major base metal producer.
- Completing an option agreement on Riverside's copper properties to a major copper producing partner.
- Commence partner funded drilling with BHP on at least one project during H1/2023.
- Consolidating the Union Project Area and exploring for new partnerships after the high-grade exploration results received in 2022.
- > Exploration results in Mexico for our gold projects including Cuarentas.
- ➤ Working on a potential farm-out deal for Cecilia with proposed drilling on the property.

Royalty Portfolio

	Project	Partner	Country	NSR	Commodity
1	Sugarloaf Peak	Arizona Metals Corp	USA	2%	Gold, copper
2	Tajitos	Fresnillo PLC.	Mexico	2%	Gold
3	Capitan	Capitan Mining	Mexico	1%	Silver, gold
4	High Lake Greenstone	Golden Retriever	Canada	2%	Gold

Management

- John-Mark Staude, President & CEO
- Freeman Smith, VP Exploration
- · Julian Manco, Chief Geoscientist
- Abelardo Pena, General Manager (Mexico)
- Robert Scott, CFO
- Mehran Bagherzadeh, VP Investor Relations

Board of Directors & Advisors

- John-Mark Staude, *Director*
- Wendy Chan, Director

5 RIVRES•COM

John-Mark Staude, President & CEO

Mr. Staude earned a Masters of Science from Harvard University in 1989 and a Ph.D. in economic geology from the University of Arizona in 1995.

Freeman Smith, VP Exploration

Mr. Smith has 19 years of professional experience in the resource industry working with Oro Gold, BCGold Corp and Goldplay Explorations.

Ben Connor, Operations & Data Strategist

Mr. Connor has worked with BHP Billiton & Golder Associates before joining Riverside in 2007 and plays an integral role in assisting and advising senior management on technologies & compilations.

Julian Manco, Chief Geoscientist

Mr. Manco completed MS at MDRU UBC Vancouver and has worked with majors and junior companies on a range of deposit types being involved with discoveries in Colombia and Mexico.

Ontario is the **Leading Mining Jurisdiction in Canada**

- Ontario's mining belts are located within mining friendly jurisdictions, have excellent infrastructure and host numerous producing mines
- Riverside's projects are located Northeast of Thunder bay Ontario within the Geraldton Greenstone Belt (GGB) and the High-Lake Greenstone Belt along the Ontario and Manitoba border

Ontario Canada Geraldton Greenstone Belt

- Sizeable property package of 5,680 hectares in the GGB
- Historical production in the GGB region of 4.1M oz from 13 mines
- 2019 exploration program showing strong intercepts of up to 32 g/t gold
- 100% owned by Riverside & 2022 12 hole, 1,700m drill program completed
 - Assays received with all holes intersecting anomalous gold

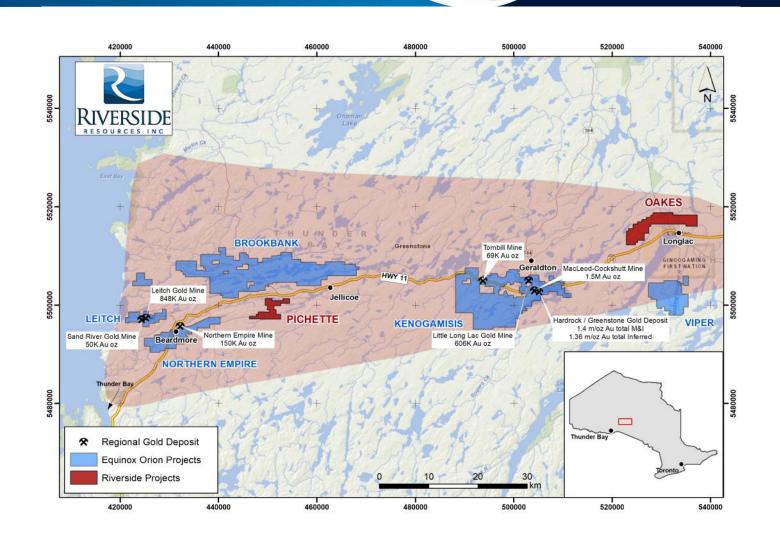

Photos: Drill rig and bulldozer | CEO, John-Mark and Geologist, Julian logging drill core | & visible gold in core sample from Oakes 2022

- Multiple Gold Projects Located in Ontario, Canada
 - Oakes, Pichette, Duc and more
- Progressing the Oakes Gold project which covers over 55 km²
- Drilling at Oakes
 - Initial drill program: 1,700 m & 12 holes at the HG
 Target: Assays for all 12 holes received
 - Hole DDH2022-02: 2.1 g/t Au over 6 m
 - Including: 8.4 g/t Au over 1m
- Prolific gold mining region and in close proximity of Equinox Gold / Orion Greenstone Mine
- Excellent access and nearby infrastructure
- Historical high-grade gold intercepts and discovery potential
- Exploration program at Oakes program found highgrade gold of up to 32 g/t Au

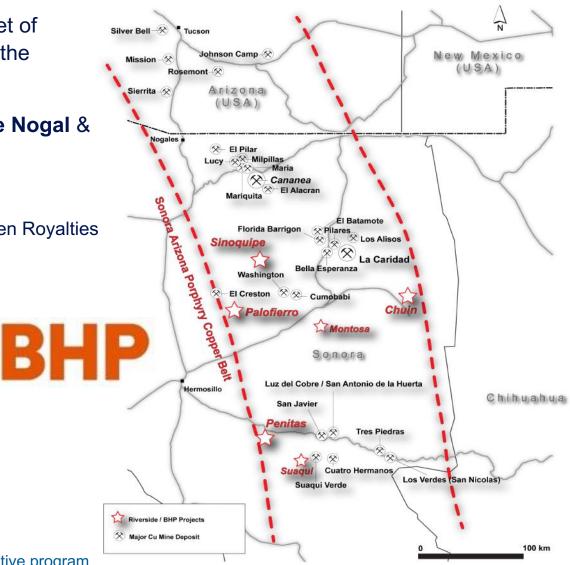

Strategic Copper Exploration Funding Agreement with BHP

- BHP & Riverside extend EFA into 4th year with a budget of US\$1,600,000 for exploration towards 5 projects in the HVWP including the Llano de Nogal Project
- US\$1,100,000 in exploration funding towards Llano de Nogal & US\$500,000 towards ongoing HVWP properties
- 5 copper properties identified and growing
 - Recently optioned Llano de Nogal project tenure from Orogen Royalties for the EFA
 - Preparing targets for a drill program
- Monthly management fees plus 10% for all work
- Built in success fee payments to Riverside at each stage of development
- Three Stages:
 - 1. Project Generation Phase (I)
 - 2. Project Operation Phase (II)
 - 3. Joint Venture Stage Phase (III)

Sonora Mexico

BHP Exploration Partnership

- Partnership with BHP to explore the Laramide copper belt for large copper deposits
- BHP to fund **US\$1.6M/year through 2022** continuing generative 5 copper project in Sonora, Mexico
- Recently optioned Llano de Nogal project tenure from Orogen Royalties for the EFA
- Monthly management fees plus 10% for all work
- Built in success fee payments to Riverside at each stage of development

La Union Project

- Currently drill targeting exploration with high grade oz/t gold samples
- Expanded land position and consolidated the mineral tenure increasing project size to 26 km²
- Field work includes defined exploration program around former producing mines and extensions of mineralized bodies now ready for a drill program
- · Consolidating the Union Project Area with the acquisition of the past-producing Union Mine

Los Cuarentas Project

- Situated 17 km NW of SilverCrest Metals' Las Chispas mine and Agnico Eagle's Santa Gertrudis mine
- Sampling program found high-grade gold (32.9 g/t & 21.7 g/t Au)
- Drilling found gold and now ready for further partner exploration
- 100% owned by Riverside Resources

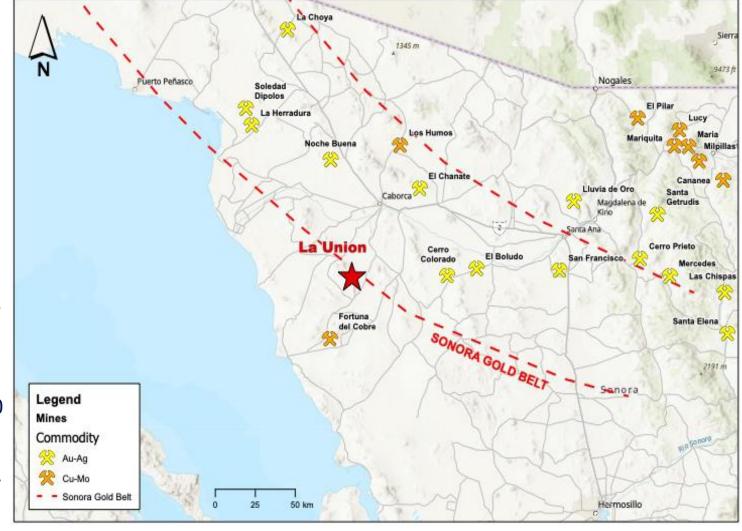

- Signed an Option Agreement, to acquire a 100% undivided right, title and interest in the Union Mine
- High-grade 83.2 g/t (2.6 oz/t) gold & 4,816
 g/t (150 oz/t) silver sample results

(see press release January 5, 2022)

- Located in the Sonora Megashear gold belt
- Manto-Chimney, Polymetallic system
- Continued exploration work, which will include a geophysical survey to identify targets for an upcoming drill program
- Funding from Hochschild Mining of >\$500,000
 in 2022 work and payments
- Riverside's 1st phase exploration found *highgrade gold assays: 59.4 g/t Au & 40 g/t Au

(see press release October 6, 2021)

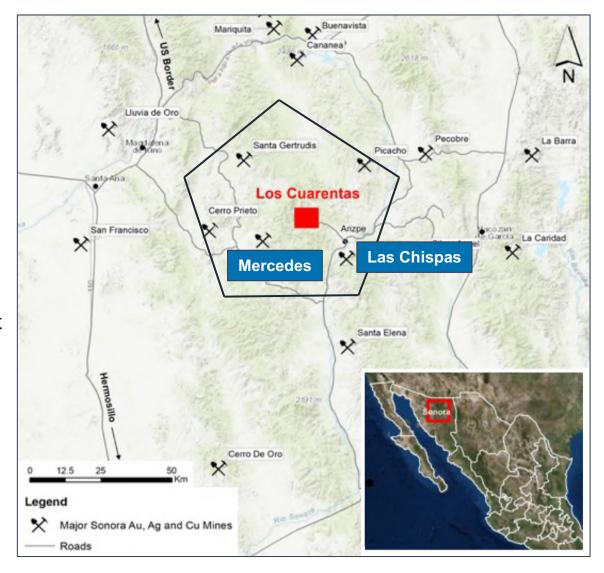

- 100% Riverside owned
- Partner-funded 1,500 m Drill Program completed continued exploration program in preparation for future drilling
- Located in NE Sonora, Mexico & 17 km NW of SilverCrest Metals' Las Chispas mine
- High-grade, low-sulphidation epithermal gold quartz vein system
- 3rd Sampling Program found high-grade Au (32.9 g/t & 21.7 g/t Au)

*(see press release October 8, 2020)

BHP Exploration Alliance 4 other properties progressing

Option Agreement at Suaqui Verde Copper Project with Southern Empire

Covid-19 Response

- Responded to municipality of Bacadehuachi by donating PPE products jointly with its partner BHP.
- Expanded safety protocols at Riverside office in Hermosillo.
- Running education sessions to educate communities on Covid safety protocols.

Social Investments

- Provided construction funding to the Ejido (community) in Peñoles district to rehabilitate/refurbish a local community church.
 Responded to request from community for paintings for the church.
- Worked with Ejido members in Peñoles to construct suitable enclosures for livestock.
- Lead the initiative to improve municipal infrastructure in Peñoles by refurbishing the the local roads.

Environmental Responsibility

- Working on site reclamation at Los Cuarentas following trenching and sampling program.
- Riverside ensures its work on physical properties is followed by reclamation work in accordance with environmental regulations.

- Canada: Drilling Completed for 100% owned
 Oakes Gold Project in Ontario
- Riverside & BHP expand copper programs with +US\$1.6M in partner-funding for 4th year of EFA
 - Lead generation → Copper Discovery
 - BHP funding exploration at Llano de Nogal
 Project for porphyry copper
- Union Gold-Silver Project progressing for discovery with funded exploration program
- Southern Empire funding Suaqui Verde exploration on the Riverside asset
- New strategic partnerships to advance existing 100%-owned Riverside projects
- Discovery opportunities in copper and gold lined up and moving ahead with portfolio of catalysts
