

KNOWLEDGE IS GOLDEN

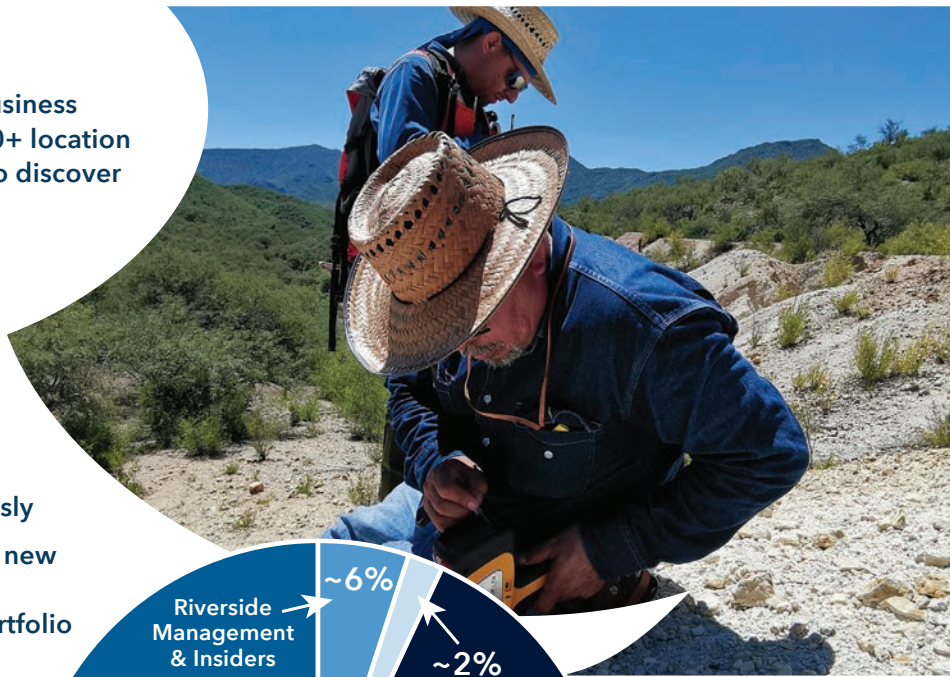

RIVERSIDE
RESOURCES INC

Riverside is a well-funded, value-driven exploration company advancing a strong portfolio of gold, silver and copper properties in North America.

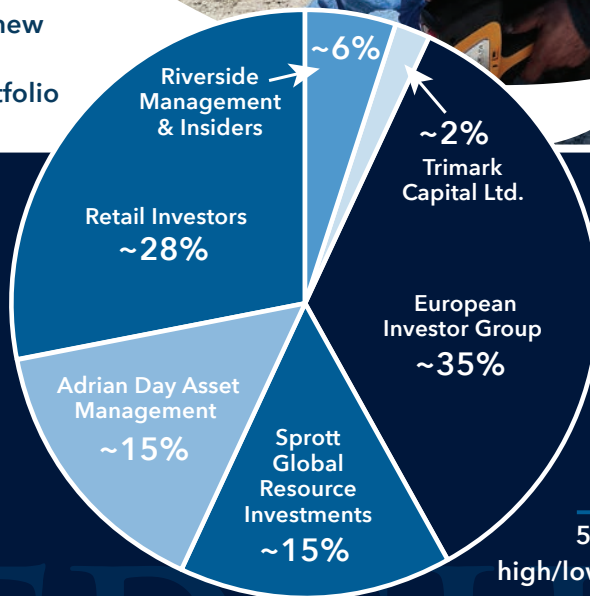

OVERVIEW

- Riverside follows the Prospect Generator business model and leverages the Company's 75,000+ location database and experienced technical team to discover and acquire new exploration assets.
- Benefits of the Prospect Generator model
 - Conserves capital and reduces burn rate: RRI has \$2.5M in cash
 - Limits shareholder dilution: RRI has less than 63M shares outstanding
 - Increases discovery opportunities by advancing numerous project simultaneously
 - Riverside continues to focus on acquiring new quality projects to add to the portfolio, as partner funding advances the existing portfolio

CATALYSTS & VALUE DRIVERS

- Riverside progresses Exploration Funding Agreement w/BHP
 - Lead Generation > Copper Discovery
- New Project Acquisitions & Portfolio Growth
 - Mexico Expansion (Millrock Portfolio Purchase)
 - Canadian Project Acquisitions
- Riverside expects to deliver partner-funded drill program at Oakes gold Project
- Continued exploration at Riverside owned projects in Mexico
 - Cecilia & Los Cuarentas Projects: New targets identified and permitted for drilling
- New strategic partnerships to advance existing 100%-owned Riverside projects

Major shareholders own a combined ~70% of RRI's outstanding shares

CAPITAL STRUCTURE

52-week high/low range	\$0.22 / \$0.125
Issued & Outstanding	< 63,000,000
Fully Diluted	< 85,000,000
Cash on hand	\$2,500,000

Riverside currently has BHP and Sinaloa Resources Inc. as partners in Mexico & Croesus Gold Corp. as a partner in Arizona, U.S.A.

MEXICO CANADA

Cecilia Gold-Silver Project
Sonora, Mexico

- Drill Permitted with drill targets identified
- Good access and close to necessary infrastructure
- RRI exploration program found high-grade Au and Ag assays in 2019

Los Cuarentas Silver Project
Sonora, Mexico

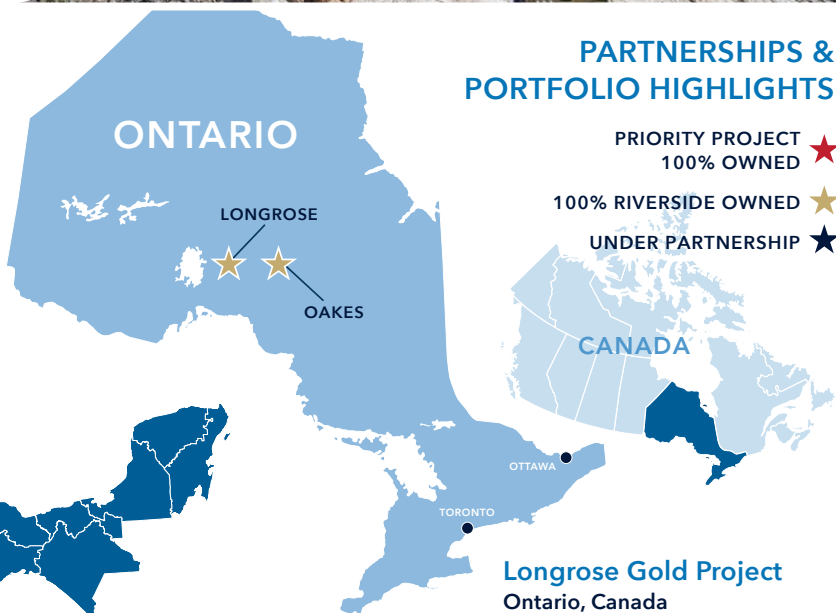

- 100% Riverside owned
- Located 17 km NW of SilverCrest Metals' Las Chispas mine
- High-grade, low sulfidation epithermal gold quartz vein system
- Good access
- Drill permitted with identified targets for proposed drill program

BHP Exploration Partnership Agreement Mexico

- BHP to fund US\$1M/yr for a minimum of two-years (copper generative work)
- Focus on Laramide Copper Belt (eastern Sonora, Mexico)
- Built in success fee payments through different stages of Program
 - Project Generative Phase (I)
 - Project Operation Phase (II)
 - Joint Venture Stage (III)
